Position Summary....

The nurse practitioner in this role will be responsible to provide on-site primary, acute and episodic health care for employees and their dependents (18 years or older) at an established employer work location. This position requires a significant level of professional autonomy as well as the ability to direct the clinical activities of the Medical Assistant (MA) assigned to the clinic. The job requires a person who is highly motivated and able to work both independently and collaboratively with other healthcare providers.

About Us....

Clinical Resources Group™ is a health services company that offers customized employer worksite clinics under the CareCorps® name. Our commitment is to provide quality treatment and continuity of patient care in a caring, compassionate and unrushed environment.
